

# On Air Clock

## The Final Count-down

**ON AIR CLOCK** displays on standard TV Monitor current time, in six digits HH:MM:SS with circleline seconds. It is used in radio studios, tv studios and master control rooms for correct time display and messaging. Clocks are something you're always glancing at.

**ON AIR CLOCK** also displays custom messages, such as "ON-AIR", "INCOMING TELEPHONE CALL", "APPLAUSE", "SILENCE", providing an additional communication tool besides classic headphone intercom and studio talk-back.

**ON AIR CLOCK** offers an unrivalled flexibility of operation, the widest number of functions modes and user display settings. In addition to Time and Date info, two major features are available. - Count-down timer for end of live programs signalling and advertisement interruption during productions. - Count-up

timer for live program simulation during recording or just as time elapse display.

On air clock features an android device with HDMI output to connect to a standard TV monitor. Time data and messages are pushed to multiple devices from a central server were the On air clock server is installed.

AxelTech's Sat Time Synchronizer (optional) may be used as GPS time reference, allowing 1/100 of second accuracy on all ON AIR CLOCK displays.
